

## Dear guests of Ukraine!

We sincerely welcome you in our country. We hope that you enjoy your stay in Ukraine and will have positive impression after your visit.

We are united not only with our joy of football. Most of Ukrainians wish to see Ukraine in the commonwealth of European nations. We feel ourselves a part of Europe. But, unfortunately, the current Ukrainian authority do not care about people and act like occupation forces.

This authority has stopped Ukraine`s integration with the European Union. And this authority wants to cease the existence of Ukraine as an independent state.

The Ukrainian Parliament intends to adopt a law that will exterminate the Ukrainian language at first, and, as a result, it will exterminate Ukraine. It can possibly happen during Euro-2012. We do not want to spoil your football holidays, but we love our country very much and cannot let our authorities destroy it. Therefore, we beg your pardon if protest actions and demonstrations somehow cause inconvenience for you and spoil your vacation.
